

JOHN SHARON:

John is a dedicated, creative and complete professional designer. To Savino & Miller Design Studio, he brings a wealth of knowledge to the design process based on his multidisciplinary education, over 20 years of professional experience, and his many interests. In addition, he has a complete understanding and knowledge of the process of production. He has worked on many projects in a diverse range of scales and typologies and especially enjoys working in the urban context. He is well versed in AutoCAD and many other programs necessary in our design and production process. He has the ability to “connect” all of these programs to transform project designs into holistic documents.
